Adult Briefs (Listed from Maximum Absorbency to Moderate Absorbency)

Covidien's Dual-Air System is available on the Wings™ Hook & Loop 3D and Wings™ Hook & Loop Ultra 3D Adult Briefs. It features plastic-free nonwoven side panels that increase the exposure of skin to the air. This breathable construction combines with a higher-cut leg opening to maximize patient comfort and protection.

The Dual-Air System provides up to 80% more air-skin contact per leg

- Customized comfort fit has less material than a traditional-style brief, leaving up to 40% more skin open for direct air contact.
- Unlike traditional-style briefs, air permeable side panels have no plastic; this “breathable” area allows up to 40% more air-skin contact.

New Wings™ Quilted Overnight Adult Brief Maximum Absorbency

- Maximum absorbency makes this the perfect brief for heavy wetters and overnight use.
- Cloth-like backsheet is ultrasonically bonded for a “quilted” look and feel that is soft and quiet for enhanced comfort and dignity.
- Breathable side panels allow air to pass through, keeping skin dry, cool and comfortable.
- Robust fastening system attaches anywhere to the front of the brief.
- Combines super-absorbent polymer, a high performance blue dryness strip, breathable top sheet and re-fastenability for added comfort, protection and odor control.
