

KOPPS distributes brand name incontinence supplies to facilities and individuals throughout the tri-state area. Understanding that every individual has unique incontinent care needs, we developed a special program that allows you to purchase Kendall's full line of incontinence products at prices much lower than regular retail prices. In some cases you can get them at no charge.

Medicaid, Keystone Mercy, and Amerihealth Mercy all participate in KOPPS incontinence program. KOPPS will bill the patients insurance company every month based on the prescription and allowed amount set within the insurance company's guidelines. Just for participating in the incontinence program, we will automatically ship your order free of charge every month.

We also have a nurse on-site to custom fit briefs and pull-ups for our facilities. To guarantee size for our at-home customers, we will send samples free of charge. We find this personal attention to our clients' needs has helped to make us a leader in the healthcare industry.

Allowances

KOPPS will ship the maximum allowable amount without going over insurance company limits. For example, if a patient needs medium briefs and the case quantity is 96, they will receive two cases, or 192 briefs, which remains under the 200 brief maximum.

■ Medicaid

- Combination of diapers/pull-ups and liners is 300 per 30 day period
- 60 chux "bed pad" maximum per 30 day period
- 2 boxes of gloves (200 gloves) maximum per 30 day period

■ Keystone Mercy or Amerihealth Mercy
